

# Key Information Document ("KID")

## Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

## Product

<b>Product name</b>	Meteor: 7Y GBP AC on WO UKX, SPX, SX5E
<b>Product identifier</b>	ISIN: XS1800098334   Valor: 40200526   Series number: SPLB2018-0Y5A
<b>PRIIP manufacturer</b>	Credit Suisse International (www.credit-suisse.com/derivatives). The product issuer is Credit Suisse AG, acting through its London Branch. Call +44 3301 595 272 for more information.
<b>Competent authority of the PRIIP manufacturer</b>	Authorised by the U.K. Prudential Regulation Authority and regulated by the U.K. Financial Conduct Authority and U.K. Prudential Regulation Authority
<b>Date and time of production</b>	25 April 2018 2:20:47 London local time

You are about to purchase a product that is not simple and may be difficult to understand.

## 1. What is this product?

**Type** English law governed notes

### Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product is designed to provide a return in the form of a cash payment on termination of the product. The timing and amount of this payment will depend on the change in value of the **preference shares**, which in turn will depend on the performance of the **underlyings**. The product has a fixed term and will terminate on the **maturity date**, unless terminated early. If, at maturity, the **worst performing underlying** has fallen below its **barrier level**, the product may return less than the **product notional amount** or even zero.

**Early termination following an autocal:** The product will terminate prior to the **maturity date** if, on any **autocall observation date**, the **reference level** of the **worst performing underlying** is at or above the relevant **autocall barrier level**. On any such early termination, you will on the immediately following **autocall payment date** receive a cash payment equal to the applicable **autocall payment**. The relevant dates, **autocall barrier levels** and **autocall payments** are shown in the table below.

Autocall observation date	Autocall barrier level			Autocall payment date
	FTSE 100 Index	EURO STOXX 50® Price Index	S&P 500® Index	
17 June 2019	105.00%*	105.00%*	105.00%*	24 June 2019
15 June 2020	100.00%*	100.00%*	100.00%*	22 June 2020
15 June 2021	95.00%*	95.00%*	95.00%*	22 June 2021
15 June 2022	90.00%*	90.00%*	90.00%*	22 June 2022
15 June 2023	85.00%*	85.00%*	85.00%*	22 June 2023
17 June 2024	75.00%*	75.00%*	75.00%*	24 June 2024
16 June 2025	65.00%*	65.00%*	65.00%*	Maturity date

\* of the **initial reference level** of the relevant **underlying**.

**Termination on the maturity date:** If the product has not terminated early, on the **maturity date**, you will receive:

- if the **final reference level** of the **worst performing underlying** is at or above its **barrier level**, a cash payment equal to GBP 1; or
- if the **final reference level** of the **worst performing underlying** is below its **barrier level**, a cash payment directly linked to the performance of the **worst performing underlying**. The cash payment will equal (i) the **product notional amount** multiplied by (ii) (A) the **final reference level** of the **worst performing underlying** divided by (B) its **strike level**.

**Investors should note that the payments described above are based on the expected value of the preference shares.** Therefore any return you may receive on the product depends directly on the value of the **preference shares**. As such, your return is only indirectly dependent on the **underlyings**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product, as applicable, early. These events are specified in the product terms and principally relate to the product and the product issuer. The **preference shares** in turn contain provisions allowing the **preference shares** to be adjusted or terminated early in the case of certain exceptional events, in particular relating to the **underlyings**. Any such adjustments or early termination are likely to affect the amount and timing of return you receive under the product, meaning the return (if any) that you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

<b>Preference shares</b>	Cell Series 1000 PC, Class: YO, ISIN: AND001815Y03	<b>Strike level</b>	100.00% of the <b>initial reference level</b>

<b>Issue date</b>	6 July 2018	<b>Worst performing underlying</b>	For purposes of the payment at maturity: The <b>underlying</b> with the worst performance between the <b>initial reference level</b> and the <b>final reference level</b> For all other purposes: For a given date, the <b>underlying</b> with the worst performance between the <b>initial reference level</b> and the relevant <b>reference level</b>
<b>Initial reference level</b>	The <b>reference level</b> on the <b>initial valuation date</b>		

**Intended retail investor** The product is intended to be offered to retail investors who fulfil all of the criteria below:

1. they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, with experience of investing in and/or holding a number of similar products providing a similar market exposure, either independently or through professional advice;
2. they seek capital growth, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
3. they accept the risk that the issuer could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
4. they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

The product is not intended to be offered to retail clients who do not fulfil these criteria.

## 2. What are the risks and what could I get in return?

**Risk indicator**

**The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.**

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions are very unlikely to impact our capacity to pay you.

**Be aware of currency risk:** If the currency of the product is different from the currency of the country in which you live, you will receive payments in a different currency, so the final return you will get will depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

**Performance scenarios**

<i>Investment: GBP 10,000.00</i>				
<b>Scenarios</b>		<b>1 year</b>	<b>4 years</b>	<b>7 years (Recommended holding period)</b>
<b>Stress scenario</b>	<b>What you might get back after costs</b>	GBP 7,957.78	GBP 4,110.68	GBP 2,350.90
	Average return each year	-20.31%	-14.71%	-10.97%
<b>Unfavourable scenario</b>	<b>What you might get back after costs*</b>	GBP 10,750.00	GBP 10,750.00	GBP 10,800.00
	Average return each year	7.46%	1.87%	1.15%
<b>Moderate scenario</b>	<b>What you might get back after costs**</b>	GBP 10,495.37	GBP 11,550.00	GBP 11,600.00
	Average return each year	4.93%	3.87%	2.30%
<b>Favourable scenario</b>	<b>What you might get back after costs***</b>	GBP 10,675.31	GBP 12,542.50	GBP 14,000.00
	Average return each year	6.72%	6.35%	5.74%

\* This scenario assumes that the product early terminates in year 1 and you do not reinvest the proceeds.

\*\* This scenario assumes that the product early terminates in year 2 and you do not reinvest the proceeds.

\*\*\* This scenario assumes that the product early terminates in year 5 and you do not reinvest the proceeds.

This table shows the money you could get back over the next 7 years under different scenarios, assuming that you invest GBP 10,000.00. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### 3. What happens if the issuer is unable to pay out?

You are exposed to the risk that the issuer might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

### 4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000.00. The figures are estimates and may change in the future.

#### Costs over time

<i>Investment: GBP 10,000.00</i>			
<i>Scenarios*</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 4 years</i>	<i>If you cash in at the end of the recommended holding period</i>
<b>Total costs</b>	GBP 688.09	GBP 662.37	GBP 606.44
<b>Impact on return (RIY) per year</b>	6.88%	1.66%	0.87%

\* The costs are calculated on the basis that the product early termination feature activates in year 2 and that you do not reinvest the proceeds.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

#### Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

<i>The table shows the impact on return per year.</i>			
<b>One-off costs</b>	<i>Entry costs</i>	0.87%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.

### 5. How long should I hold it and can I take money out early?

#### Recommended holding period: 7 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 23 June 2025 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is listed) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

<b>Exchange listing</b>	Luxembourg Stock Exchange (Main Segment)	<b>Price quotation</b>	Percentage
<b>Smallest tradable unit</b>	GBP 1		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

### 6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: One Cabot Square, London E14 4QJ, United Kingdom, by email to: [kid.enquiries@credit-suisse.com](mailto:kid.enquiries@credit-suisse.com) or at the following website: [www.credit-suisse.com/derivatives](http://www.credit-suisse.com/derivatives).

### 7. Other relevant information

Any additional documentation in relation to the product, in particular, the issuance programme documentation, any supplements thereto and the product terms are published on [www.credit-suisse.com/derivatives](http://www.credit-suisse.com/derivatives), all in accordance with relevant legal requirements. These documents are also available free of charge from One Cabot Square, London E14 4QJ, United Kingdom.

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for individual consultation with your bank or advisor.

The product is not in any way sponsored, sold or promoted by any relevant stock market, relevant index, related exchange or index sponsor. Further information in respect of the index is available from the index administrator.

The offering of this product has not been registered under the U.S. Securities Act of 1933. This product may not be offered or sold, directly or indirectly, in the United States of America or to U.S. persons. The term "U.S. person" is defined in Regulation S under the U.S. Securities Act of 1933, as amended.
