*Summary Risk Indicator

This information is for financial advisers only and should not be presented to, or relied upon by, private investors.

Important information: This information should be read in conjunction with the relevant Brochures and where appropriate, Key Information Documents (KIDs), which contain detailed information about each Plan and their risks and potential benefits. Information contained in this document does not constitute tax, legal or investment advice.

Investment Return

If the Closing Level of the Index on any Measurement Date before the Final Measurement Date is at least equal to its Opening Level the Plan will kick out, i.e. mature early, and make a gross investment return of 10.25% of the money you invest for each year that the Plan has been in force. The first Measurement Date will be on 21 June 2021, one year after the Start Date.

If the Plan has not matured early, and the Closing Level of the Index on the Final Measurement Date (the 'Final Level') is at least equal to its Opening Level, the Plan will provide an investment return at the Maturity Date equal to 82% of the money you invest. If the Final Level of the Index is below its Opening Level, no investment return will be payable at the Maturity Date.

Repayment of Capital

An investor will lose money if the Final Level of the Index is below 65% of its Opening Level and the amount of their money that they would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances they could lose all of their money. If the Final Level of the Index is at least equal to 65% of its Opening Level an investor will get back the amount they invested.

Investment Return

If the Closing Level of the Index on any Measurement Date before the Final Measurement Date is at least equal to its Reference Level the Plan will kick out, i.e. mature early, and make a gross investment return of 8.50% of the money you invest for each year that the Plan has been in force. The first Measurement Date will be on 21 June 2021, one year after the Start Date.

If the Plan has not matured early, and the Closing Level of the Index on the Final Measurement Date (the 'Final Level') is at least equal to its Reference Level, the Plan will provide an investment return at the Maturity Date equal to 59.50% of the money you invest. If the Final Level of the Index is below its Reference Level, no investment return will be payable at the Maturity Date.

The Reference Levels are as follows: Measurement Date 1: 105%, Measurement Date 2: 100%, Measurement Date 3: 100%, Measurement Date 4: 95%, Measurement Date 5: 95%, Measurement Date 6: 90% and Measurement Date 7: 85%

Repayment of Capital

You will lose money if the Final Level of the Index is below 65% of its Opening Level. The amount of your money that you would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances you could lose all of your money. If the Final Level of the Index is at least equal to 65% of its Opening Level you will get back the amount you invested.

Investment Return

If the Closing Level of the Index on any Measurement Date before the Final Measurement Date is 10% or more above its Opening Level the Plan will kick out, i.e. mature early, and make a gross investment return of 6% of the money you invest for each half year that the Plan has been in force. The first Measurement Date will be on 14 June 2021, one year after the Start Date.

If the Plan has not matured early, and the Closing Level of the Index on the Final Measurement Date (the 'Final Level') is 10% or more above its Opening Level, the Plan will provide an investment return at the Maturity Date equal to 72% of the money you invest. If the Final Level of the Index is below 10% above its Opening Level, no investment return will be payable at the Maturity Date.

Repayment of Capital

You will lose money if the Final Level of the Index is below 65% of its Opening Level. The amount of your money that you would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances you could lose all of your money. If the Final Level of the Index is at least equal to 65% of its Opening Level you will get back the amount you invested.

Income

If the Closing Level of the Index on any Quarterly Measurement Date is at least equal to 80% of its Opening Level, the Plan will pay a gross income of 1.55% for that quarter. No income will be payable for a quarter if the Closing Level of the Index is below 80% of its Opening Level on the Quarterly Measurement Date.

The first Quarterly Measurement Date will be on 28 September 2020, one quarter after the Start Date. Thereafter, the performance of the Index will be measured quarterly. If the kick-out condition is met (see below), income will be paid in respect of that quarter and the Plan will mature early. No further income payments will then be payable.

Kick-out Condition

From year 2, the Plan will kick-out, i.e. mature early, if the Closing Level of the Index is at least 5% above its Opening Level on any Quarterly Measurement Date. In this event you would receive a full return of your money, as well as the income due for that quarter. The first Quarterly Measurement Date on which an early maturity could be triggered will be on 27 June 2022, two years after the Start Date.

Repayment of Capital

You will lose money if the Final Level of the Index is below 65% of its Opening Level. The amount of your money that you would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances you could lose all of your money. If the Final Level of the Index is at least equal to 65% of its Opening Level you will get back the amount you invested.
