

Investment Return

If the Closing Levels of both Indices on any Measurement Date before the Final Measurement Date are at least equal to their respective Reference Levels, the Plan will kick out, i.e. mature early, and make a gross investment return of 7% of the money you invest for each year that the Plan has been in force. The first Measurement Date will be on 30 November 2021, one year after the Start Date.

If the Plan has not matured early, and the Closing Levels of both Indices on the Final Measurement Date (the 'Final Levels') are at least equal to their respective Reference Levels, the Plan will provide an investment return at the Maturity Date equal to 49% of the money you invested. If the Final Level of one or both Indices is below its Reference Level, no investment return will be payable at the Maturity Date.

The Reference Levels are as follows: Measurement Date 1: 105%, Measurement Date 2: 100%, Measurement Date 3: 100%, Measurement Date 4: 95%, Measurement Date 5: 95%, Measurement Date 6: 90% and Measurement Date 7: 85%

Repayment of Capital

You will lose money if the Final Level of the lower performing Index is below 65% of its Opening Level. The amount of your money that you would lose will be the percentage by which the Final Level of that Index is below its Opening Level. In extreme circumstances you could lose all of your money. If the Final Level of the lower performing Index is at least equal to 65% of its Opening Level you will get back the amount you invested.
