Investment Return

If the Closing Level of the Index on any Measurement Date before the Final Measurement Date is at least equal to its Opening Level the Plan will kick out, i.e. mature early, and make a gross investment return of 7.75% of the money invested for each year that the Plan has been in force. The first Measurement Date will be on 17 October 2022, one year after the Start Date.

If the Plan has not matured early, and the Closing Level of the Index on the Final Measurement Date (the 'Final Level') is at least equal to its Opening Level, the Plan will provide an investment return at the Maturity Date equal to 54.25% of the money invested. If the Final Level of the Index is below its Opening Level, no investment return will be payable at the Maturity Date.

Repayment of Capital

An investor will lose money if the Final Level of the Index is below 65% of its Opening Level. The amount of money that they would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances an investor could lose all of their money. If the Final Level of the Index is at least equal to 65% of its Opening Level an investor will get back the amount invested.

Investment Return

If the Closing Level of the Index on 30 October 2023 or any subsequent Business Day before the Final Measurement Date is at least 5% above its Opening Level the Plan will kick out, i.e. mature early, and make a gross investment return based on how long the Plan has been in force. The investment return will equal the number of days since the Start Date divided by 365 and multiplied by 7.50%.

If the Plan has not matured early, and the Closing Level of the Index on the Final Measurement Date (the 'Final Level') is at least 5% above its Opening Level, the Plan will provide an investment return at the Maturity Date equal to 52.50%. If the Final Level of the Index is not at least 5% above its Opening Level, no investment return will be payable at the Maturity Date.

Repayment of Capital

An investor will lose money if the Final Level of the Index is below 65% of its Opening Level and the amount of their money that they would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances they could lose all of their money. If the Final Level of the Index is at least equal to 65% of its Opening Level an investor will get back the amount they invested.

Risk and Target Market

Primary client type	Retail clients
Primary distribution strategy	Advised only
Investor knowledge and experience	Advanced
Financial situation	Willing and able to bear total loss of capital
Summary Risk Indicator	5
Time horizon	Long term (5+ years)
Investment objective	Growth

Investment Return

If the Closing Levels of both Indices on any Measurement Date before the Final Measurement Date are at least equal to their respective Reference Levels, the Plan will kick out, i.e. mature early, and make a gross investment return of 8% of the money you invest for each year that the Plan has been in force. The first Measurement Date will be on 14 November 2022, one year after the Start Date.

If the Plan has not matured early, and the Closing Levels of both Indices on the Final Measurement Date (the 'Final Levels') are at least equal to their respective Reference Levels, the Plan will provide an investment return at the Maturity Date equal to 56% of the money you invested. If the Final Level of one or both Indices is below its Reference Level, no investment return will be payable at the Maturity Date.

The Reference Levels are as follows: Measurement Date 1: 105%, Measurement Date 2: 100%, Measurement Date 3: 100%, Measurement Date 4: 100%, Measurement Date 5: 95%, Measurement Date 6: 90%, and Measurement Date 7: 85%.

Repayment of Capital

You will lose money if the Final Level of the lower performing Index is below 65% of its Opening Level. The amount of your money that you would lose will be the percentage by which the Final Level of that Index is below its Opening Level. In extreme circumstances you could lose all of your money. If the Final Level of the lower performing Index is at least equal to 65% of its Opening Level you will get back the amount you invested.

Product Summary

ISIN	XS2385475392
Issuer	Morgan Stanley & Co International plc (the 'Counterparty')
Issuer Credit Ratings (Fitch, Moody's, S&P)	NA, Aa3, A+
Underlying(s)	FTSE 100 Index
Start Date	12 November 2021
Term	Max 7 yrs 3wks
Capital Protection	65% European
Tax Treatment	Capital Gains Tax

Historical Simulation

We have simulated the product based on the actual historical price evolution for the underlying asset(s). Changing economic conditions, however, may not have allowed for this structure to exist at all in the past.

This simulation is not a reliable indicator of future performance and should not be used to assess the future returns or risks associated with this structure.

Number of 7 year cycles tested	7232
Sampling period	30/12/1983 to 20/09/2021
Maturity scenario	Frequency
Incurred capital loss	0.00%
Initial capital returned only	6.51%
Matured early at the end of year 1 with investment return	51.98%
Matured early at the end of year 2 with investment return	14.75%
Matured early at the end of year 3 with investment return	9.42%
Matured early at the end of year 4 with investment return	6.80%
Matured early at the end of year 5 with investment return	1.63%
Matured early at the end of year 6 with investment return	2.90%
Matured at the end of year 7 with investment return	6.00%

Primary distribution strategy	Advised
Investor knowledge and experience	Informed or Advanced
Financial situation	Willing and able to bear total loss of capital
Summary Risk Indicator	5
Time horizon	Long term (5+ years)
Investment objective	Growth

Income

If the Closing Level of the Index on any Quarterly Measurement Date is at least equal to 85% of its Opening Level, the Plan will pay a gross income of 1.50% for that quarter. No income will be payable for a quarter if the Closing Level of the Index is below 85% of its Opening Level on the Quarterly Measurement Date.

The first Quarterly Measurement Date will be on 7 February 2022, three months after the Start Date. Thereafter, the performance of the Index will be measured quarterly. If the kick-out condition is met (see below), income will be paid in respect of that quarter and the Plan will mature early. No further income payments will then be payable.

Kick-out Condition

From year 2, the Plan will kick-out, i.e. mature early, if the Closing Level of the Index is at least equal to its Opening Level on any Quarterly Measurement Date. In this event an investor would receive a full return of their money, as well as the income due for that quarter. The first Quarterly Measurement Date on which an early maturity could be triggered will be on 6 November 2023, two years after the Start Date.

Repayment of Capital

An investor will lose money if the Final Level of the Index is below 65% of its Opening Level. The amount of money that an investor would lose will be the percentage by which the Final Level of the Index is below its Opening Level. In extreme circumstances an investor could lose all of their money. If the Final Level of the Index is at least equal to 65% of its Opening Level an investor will get back the amount invested.
